TARKETT: A GLOBAL EXPERT IN DESIGN AND INNOVATIVE FLOORING

At Tarkett, we put as much effort into the appearance of products as we put into their performance. Flooring is a fundamental part of any interior design, and since our floors are built to last, they need to be both stylish and timeless.

69 decors

Tarkett laminates authentically interpret the highest quality wood and stone finishes. They are available in a wide range of decors from realistic to artistic, and the choice of widths and lengths makes it easier than ever to create a striking floor design.

DESIGN INSPIRATION

Urban Cocoon

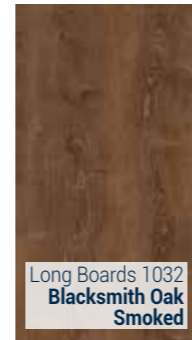

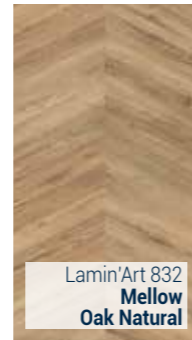

All is about minimalism, about simplifying form, colour and space to a point where they reveal their very essence. A palette of natural shades, both light and soft. Deep, cold and warm greys mellowed by aqua shades and nude tones, reflecting texture and elegance.

Tiziano Marble's light, neutral colours and subtle patterns offer ample scope for creating beautifully coordinated interiors in a wide range of styles. **Salt Oak** reveals nature's finest selection of gently expressive oak shades, where colour and structure combine in a timeless, classic look.

Living in harmony and serenity

Green Factory

Reconnect with the natural environment, returning to your origins and a simpler state more in tune with your surroundings. Balancing the outside world with life indoors, the collection goes back to basics to focus on the self, harmony and the relationship with nature. Basic beige and earth tones are energised by the warmth of ochre yellow. Intense, graduated greens reflect the organic purity of plants.

Along with the irresistible beauty of herringbone, **Mellow Oak Natural** reveals rustic wood textures to create flooring full of character. **Blacksmith Oak Smoked** captures the look of aged wood, where colour accentuates the intricate patterns formed over time.

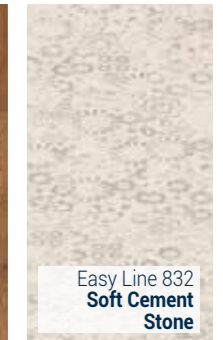

Bringing nature indoors

Eclectic Home

A blend of travel memories and craftsmanship

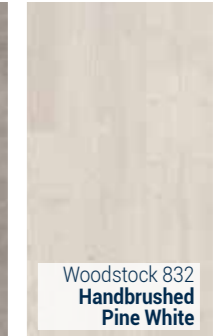

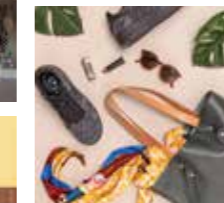

Let's celebrate cultural diversity, drawing both on tradition and innovation. The collection conjures up a carefully curated emporium of hand-crafted objects and materials richly evocative in spiritual and emotional terms. A palette of ethnic shades at once mysterious and intense. Deep ruby and sensual amber, magma red offset by cobalt blue.

Perfect in its imperfection, **Dark Copper Oak** displays deep cracks and rough emphasised textures. **Soft Cement Stone** exemplifies Eclectic Home's blend of old and new. The design is inspired by handmade cement tiles updated for contemporary tastes by powder colours.

Colourful place

Showcasing your individuality

Let the language of optimism, positivity and creativity flow. Our collection champions individuality over convention, playing with colours, trends and graphics to explore distinctive, quirky themes. Reclaim the urban space with dynamic decors brimful of energy and originality.

Textile Concrete surprises with a blend of contrasting materials. Its pattern and pigment form a versatile base for interiors using lively colours. If you love texture, **Handbrushed Pine White** is for you. The deep brushstroke effects work with the board's structure to create the feel of real wood.

AMAZING QUALITY IN A CONCENTRATION OF TECHNOLOGY

1

Highly resistant protective surface

Our innovative protective surface ensures a long lasting durability and hygiene. Embossing gives the surface a more realistic texture and allows for sophisticated decorative effects.

2

Premium decorative layer

Made from printed paper, it allows for a wide variety of very detailed designs and beautiful colours and patterns.

3

High density core board to give better resistance

High density fiberboard from more than 80% wood that provides exceptional structural strength and high resistance.

4

Highly stable balancing layer

Protection of the core board from moisture that also guarantees dimensional stability.

At Tarkett, our dedication to quality is a fundamental component of our laminate flooring.

Our range of laminate floors is manufactured in Germany from the highest quality materials and features incredibly strong construction.

LAMINATE THE EASY GOING PRODUCT

Looking for a less expensive wood or tile floor? Easy to install, easy to maintain and designed to perfectly imitate the texture of natural materials, laminate flooring is the perfect and affordable hardwood flooring alternative on the market.

A whole range of decors

Laminate offers even more variety than real wood. The printed decors allow various possibilities to play with wood essences, stone tiles and colours. With 69 decors, 3 board formats and 4 types of bevelling, our new laminate collection has the right product for your interior.

A comfortable floor

Made from 84% wood, laminate provides natural thermal insulation. Installed with an adapted underlayer, it is even cosier and can provide a good sound insulation. We recommend laminate to bring a cocooning feel to living areas.

Click it quick and easy

Our laminate floors come with 2 easy-to-use profiles that allow glueless installation: ANGLE LOCK or UNIFIT®.

ANGLE LOCK system stands for quick and simple installation process.

Collection: Easy Line 832

UNIFIT® allows a comfortable and flexible installation, plank per plank, making installation 40% faster. Enjoy the convenience of installing flooring particularly quickly. Dismantling is even easier and can be done row by row.

Collections: Essentials 832, Woodstock 832, Welcome 833, Lamin'Art 832 and Long Boards 1032

A robust flooring solution

The high density core board offers a top impact resistance and is able to withstand heavy furniture without denting. The top layer protects the surface against scratching and fading, that makes laminate a solution well adapted for rooms where there is lots going on.

A hassle-free maintenance

Our laminate has a hard sealed surface and its overlay is stain resistant. Melamine based, it is an excellent barrier against the growth or spread of germs, contributing to a healthy home environment. Our tight locking systems also prevent dust and dirt from getting stuck on the surface and in between planks, so when cleaning time comes, a vacuum and a damp mop with soft detergent is all that is needed.

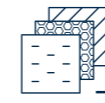

DELIGHT IN THE DESIGN DETAILS

The quality of Tarkett laminate floors can be found in every detail. We have taken special care to make sure our floors offer the design possibilities you are looking for.

Finishes & embossing

When it comes to laminate flooring, every detail counts. Our offer is available in a wide range of finishes, different surfaces from deeply embossed to lighter effects, playing with the gloss reflection from matt to silky & gloss.

Replicate the natural

A high definition printed decorative layer recreates the look & feel of wood and stone so well that it could be mistaken for the actual material.

Attention to detail

Most laminate designs benefit from our Plus Effect technology. Each plank receives an Embossing In Register treatment to add lifelike traces and patterns that subtly catch the light.

Plus Effect: engraved patterns onto planks with Embossing In Register to reproduce wood's natural essence

Bevelling

We offer four kinds of bevelling to help you create different styles of decor.

No bevel

A simple finish for a natural look

Double-sided

V-bevelled on the long sides to enhance the impression of length

Four-sided

V-bevelled on all four sides for an authentic wood look

Tile effect

Additional bevells milled onto the panels for a natural tile effect

Board formats

The choice of plank formats makes a huge impact on the style of the room. For total design flexibility, Tarkett laminate floors come in a selection of 3 different formats.

Classic planks

The elegance of a classic wooden floorboard

BUILDING A SUSTAINABLE FUTURE

At Tarkett, we strive to support both our professional clients and customers in creating healthy, beautiful and sustainable living spaces. Working with industry partners, we bring our best thinking and efforts toward making a positive impact on people and the planet.

Designing for life

We design our flooring solutions for life, thereby contributing to people's well-being and good health as well as preserving natural resources.

Good materials

Our laminate products are made of 84% natural materials, mostly wood. The wood and raw materials we use in our production are handled in a sustainable way. Our range of products is PEFC™ certified*. Wood used for our products are coming from forests that have proven sustainable management.

Our laminate range fulfills the most stringent standards and sustainable processing. This is good for the environment, but also for you. The use of high-quality raw materials guarantees a laminate flooring that contributes to a healthy home environment.

People-friendly spaces

We use no materials that might pose a risk to the indoor living environment and during recycling.

• Good indoor air quality

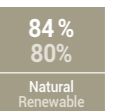

Our laminate range showcases very low VOC (Volatile Organic Components) emissions for optimal indoor air quality.

• Glueless installation

The installation of our laminate floors is chemical-free as it does not require the use of any glue.

• Easy maintenance

Our floors can be maintained with a damp mop and soft detergent so no heavy chemical use is required.

Closing the loop.

At the end of its life-cycle, laminate flooring can be reused or recycled as an energy source. It is totally combustible and can be incinerated without any dangerous emissions.

Driving collaboration

We seek ways to work more closely with our customers, suppliers and industry partners as we believe in a collaborative approach to respond to global challenges
